GROWING**

AAB INTERNATIONAL

AAB has over 30 years of experience as a consultant for the horticultural industry offering expert knowledge, sharing expertise, being decisive and providing solution-focused advice. We are consultants, engineers and brokers.

Consultants

AAB Consultants have extensive knowledge in the areas of international feasibility studies and energy matters such as Combined Heat and Power and residual heat.

Engineers

AAB Engineers are experts at (3D)-designing, calculating and developing the best possible solution, technologically as well as economically. Their extensive, international knowledge of greenhouses, growth chambers, climate cells, lighting, and heating & cooling systems allows them to deliver excellent production facilities.

Brokers

AAB Brokers are highly experienced in international valuations. Our business valuers can plan and calculate the best Net Present Value for your investment with their knowledge and experience in the horticultural sector.
