

# EDRIZZI

## Feature: Cardboard cubes

### APPLICATIONS

- Vario coarse: for foaming, adhesive and wet lacquer.
- Vario medium: standard solution for the most common paints.
- Vario fine: for dry and poorly adhesive paints.

### ADVANTAGES

- Modular change, so only replace what is necessary.
- 30x longer service life than other paint mist filters.
- Large recording capacity.
- Noise in the coating zone is reduced by 15 to 20 dB.

### CHARACTERISTICS

- Cardboard cube with an internal labyrinth. Big depth, for a long service life.

DESCRIPTION	WIDTH MM	HEIGHT MM	DEPTH MM	CAPACITY M3/H	ΔP INITIAL	EFFICIENCY	MAX. TEMPERATURE	LOADING CAPACITY
