

IF80 FILTER MAT

Feature: Fiberglass filter mat

APPLICATIONS

- Pre-filtration in filter installations for gas turbines

BENEFITS

- Highly robust design
- Available in non-standard sizes

SPECIFICATIONS

- Filter class according to ISO 16890
- Medium: Fiberglass, progressive structure
- Recommended final pressure drop: 250Pa
- Max. continuous temperature: 80°C
- Max. relative humidity: 100%
