

FILTER FRAMES HEPA

Installation frames for absolute filters

APPLICATIONS

- Installation frames for (H)EPA filters

BENEFITS

- Modular design, easily connectable
- Allows for simple, quick, and leak-free filter installation
- Usable for filters with thicknesses ranging from 150 to 400mm, depending on the mounting kit used

SPECIFICATIONS

- Frame made of galvanized steel or stainless steel
- Standard delivery includes a mounting kit for filters with a thickness of 292mm (mounting kits for filters with other thicknesses are available upon request)
- Frames with sealing are available upon request

DESCRIPTION	MATERIAL	WIDTH (A) MM	HEIGHT (B) MM	DEPTH (C)MM	FILTER WIDTH MM	FILTER HEIGHT MM	FILTER THICKNESS MM
