

18x14 Fiberglass Stiff

Fiberglass Stiff 18x14 is a reinforced fiberglass mesh featuring a heavier 0.33 mm core yarn, engineered for applications that demand increased strength and durability. This makes it particularly well-suited for roller and retractable screens, as well as patio and pool enclosures.

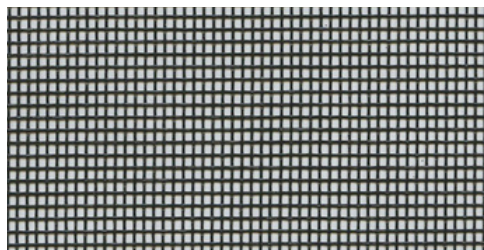

Designed to withstand strong winds, airborne debris, and harsh environmental conditions, this mesh offers reliable insect protection while still allowing for natural airflow. Its robust construction and versatile performance make it the ideal choice for areas exposed to more severe elements.
