

20x20 No-See-Um

20x20 No-See-Um Fiberglass Screen is a tightly woven insect mesh engineered to keep out tiny flying insects such as no-see-ums, gnats, sand flies, and other pests common in marshy or coastal environments. The 20×20 mesh construction offers a fine barrier that still provides good ventilation, clear visibility, and a degree of daytime privacy.

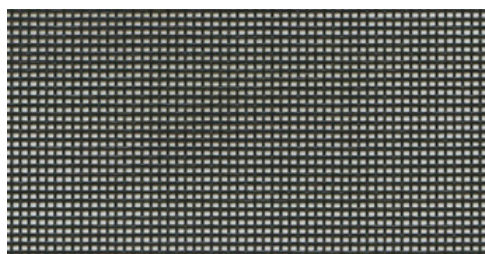

Made from vinyl-coated fiberglass yarn, it is noncombustible, rust- and corrosion-resistant, and ideal for windows, doors, patios, and pool enclosures. Durable and low-maintenance, this screen is perfect for homes in humid or coastal environments.

Specifications

Colors	Charcoal & Silver Gray	Mesh (weft x fill)	20 x 20 mm
Widths	91 cm, 122 cm, 152 cm, 183 cm, 213 cm, 244 cm, 274 cm & 335 cm <i>Other widths on request</i>	Yarn ø	0,33 mm
Roll length	30,5 m <i>Other lengths on request</i>	Openness factor	42 %
Packaging	Individually wrapped in paper	Aperture	± 0.94 mm x 0.94 mm
		Weight	200 g/m²
		Fabric Thickness	0,38 mm
		Color fastness 1200hrs	Color Fastness (4/5)
		Product composition	Fiberglass
