

# Glas-Shield Screen

Glas-Shield is a durable 18x14 fiberglass mesh that has been vinyl-laminated to serve as both a privacy screen and a barrier against dirt and debris. Commonly installed in lower enclosure panels (chair rail down), it's ideal for pool enclosures and other vertical applications.

While not suitable for roofing or horizontal use, Glas-Shield provides added privacy, wind protection, and cleaner outdoor spaces, making it a practical choice for homeowners seeking extra enclosure control.
