

PetScreen

PetScreen is a durable, pet-resistant insect screen designed to withstand the scratches, pawing, and playful energy of most dogs and cats, all while keeping insects out and maintaining clear outward visibility.

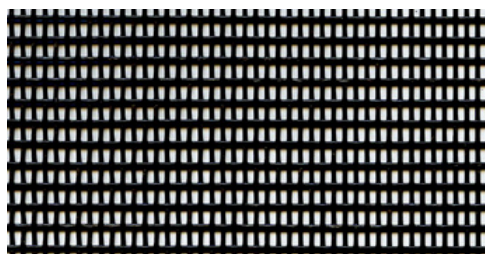

Made from tear- and puncture-resistant material, PetScreen is ideal for high-traffic areas such as windows, doors, patios, and porch enclosures. Safe for pets and built for long-term performance, it's the perfect solution for homes where durability and protection go hand in hand.
