

Pollen Insect Screen

Poll-TEX is the ideal screen mesh for people who suffer from hay fever or allergies. Thanks to a special electrostatic coating, the mesh acts like a magnet: it attracts pollen and fine dust particles from the air and keeps them outside your living space. This allows you to ventilate your home easily without letting in pollen, airborne dust, or insects.

This high-quality mesh has been extensively tested and offers proven protection against pollen from grasses, trees, and weeds.

Specifications

Colors	Black	Aperture (L x W)	0,2x 1,2 mm
Widths	120 cm & 160 cm <i>Other widths on request</i>	Openness factor	35 %
Roll length	100 m <i>Other lengths on request</i>	Weight	114 g/m ²
