

# Solar Insect Screen

Solar Insect Screening combines effective insect control with solar protection, blocking up to 65% of the sun's heat and glare. Its tightly woven mesh keeps even the smallest bugs out while helping to maintain a cooler indoor temperature and reducing glare.

The screen also enhances daytime privacy without sacrificing outward visibility, making it ideal for windows, doors, patios, and screened enclosures. Whether your windows are open or closed, it performs year-round and adds lasting comfort to your space.

## Specifications

Colors	Charcoal
Widths	91 cm, 122 cm, 152 cm, 183 cm, 213 cm, 244 cm <i>Other widths on request</i>
Roll length	30,5 m <i>Other lengths on request</i>

Mesh (weft x fill)	20 x 30 mm
Yarn ø	0,33 mm
Openness factor	Approximately 32 %
UV blockage	Approximately 68 %
Aperture	± 0.86 mm x 0.45 mm
Weight	236 g/m <sup>2</sup>
Fabric Thickness	0,406 mm
Flame resistance	10 sec. max.
Product composition	63% Vinyl / 37% Fiberglass
