

SunScreen

SunScreen is the original woven solar screen fabric, made from vinyl-coated fiberglass to provide dual protection: it blocks up to 70% of the sun's heat and glare while functioning as an effective insect screen.

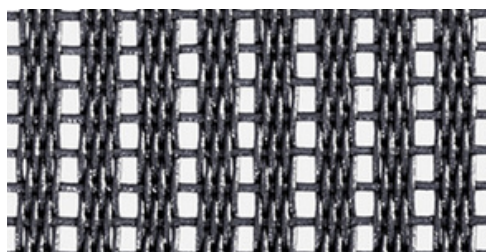

Ideal for year-round comfort, it helps reduce solar heat gain in summer and heat loss in winter, all without sacrificing outward visibility. SunScreen is easy to install on windows of any size, making it a smart choice for energy-conscious, pest-free living.

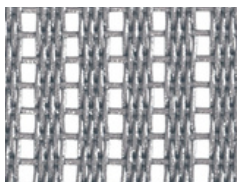

Specifications

Colors	Charcoal, Silver Gray & Bronze	Mesh (weft x fill)	20 x 30
Widths	91 cm, 122 cm, 152 cm, 183 cm, 213 cm & 244 cm <i>Other widths on request</i>	Yarn ø	0,33 mm
Roll length	30,5 m <i>Other lengths on request</i>	Openness factor	Approximately 25 %
Packaging	Individually wrapped in protective plastic & all have 5.4 cm brown kraft cores	UV blockage	Approximately 75 %
		Aperture	± 0.86 mm x 0.45 mm
		Weight	288 g/m²
		Fabric Thickness	0,533 mm
		Flame resistance	10 sec. max.
		Product composition	65% Vinyl / 35% Fiberglass
