

TuffScreen No-See-Um

TuffScreen No-See-Um is a heavy-duty, tightly woven insect screen designed to block out even the smallest insects, including no-see-ums. Constructed from durable vinyl-coated polyester, this mesh offers exceptional strength, making it ideal for porches, patios, pool enclosures, and other high-exposure areas.

Its fine weave not only enhances insect protection but also provides increased daytime privacy and resistance to harsh weather conditions like strong winds. Available in multiple widths, TuffScreen No-See-Um is a versatile, long-lasting solution, perfect for both standard and retractable screen systems.

Specifications
