

UltraVue Insect Screen

UltraVue is specially designed for those who want to make the most of their view. The mesh is durable, easy to install, weather-resistant and has improved airflow. Its hydrophobic coating doesn't wash off and reduces the "window effect" during rain, so you maintain clear visibility even in bad weather. The Water Shed Technology coating is now standard on UltraVue. This innovative coating will keep the screen cleaner longer and clear of water during and after rain showers. For maximum viewing clarity, choose UltraVue.
