

Plinova 13 mm Flydoor

Plinova insect screen doors are among the slimmest pleated systems on the market and perfectly match modern, minimalist architectural styles. With an installation depth of just 13 mm, this system is ideal for situations where space is limited, without compromising on comfort and functionality.

The pleated mesh provides an elegant appearance and smooth operation. Plinova is quiet in use, user-friendly, and designed for everyday convenience.

Thanks to its compact design and smart construction, installation is quick and easy. The system is suitable for both doors and windows and integrates seamlessly into a wide range of applications. Plinova is available as a single door, double door, and window solution.
